MEANINGFUL WORK PLACEMENTS

Workshop overview

With many thousands of work placements required each year for young people across the region, this training will give you valuable advice, guidance and a best practice toolkit. It aims to provide you with support in the delivery of meaningful work placements for young people that offer the best value to your business.

Who should attend

This workshop is designed to support individuals who supervise and manage work placements within their organisations or would like to find out how to.

Course outline

The format of the day includes facilitator-led discussion, group and individual activities, presentation skills practice, and action planning.

The course content includes:

> Understand the value and impact of effective work placements
> Explore what good and bad work placements look like - before, during and after
> Build a toolkit of best practice for:
  • Health and safety
  • Setting and managing expectations
  • Feedback and review
